

**Ordering Information**

Catalog No.	Finish	Description
37S99WH	Matte White	ProSpec 277V Powertrip, Live End
37S99BK	Matte Black	

**Features**

- Wire Cover:** 0.060 thick galvanized steel.
- Mounting Plate:** 0.060 thick galvanized steel.
- Round Knock Out:** (1) 7/8 diameter knockout each, for both the suspended and the j-box applications. Positioning of hole can accommodate grid ceiling runners.
- Ground Terminals:** (1) ground terminal for supply ground wire.
- Rectangular Knock Out:** Allows feeding from j-box with proper UL area for splice inspection without removing connector from j-box.
- Mounting holes:** (4) holes on 3.5 in. centers secure connector to j-box or mounting surface. Applicable with j-box mounting plate application only.
- Track Connector Screw Terminals:** Each terminal accepts (2) 12 or 14 ga. copper feed wires.
- Basic Track Connector:** Keyed to maintain proper polarity with track. Installs into track providing electrical and mechanical connection.
- Circuit Breaker:** (Sold Separately). Limits the amount of electrical load that can be placed on the circuit. Can be used as standard On/Off switch.
- Cover Mounting Screws:** Pin Torx head steel screws secure cover to plate. Color matches fixture color.
- Tamperproof Locking Screw:** Mechanically secures connector into track. Color matches fixture color.

**Compatible Plug-In Breakers**

Compatible with PSP power breakers  
 Refer to PSP1A spec sheet  
 Ordered separately

**Mounting**

Mounts directly to surface or to a 4" octagonal Outlet box. Connects to ProSpec track units. Suitable for mounting to grid ceiling runners.

**Electrical**

Compatible with (2) 20 amp circuits, each with a capacity of 277V and 60Hz. Each PowerTrip can take a maximum of (2) circuit breakers. All wiring must be in accordance with National and Local Codes.

**Labels**

U.L. listed

Note: to assure full compliance with local energy codes and regulations check with your local code official.
