

Tangent®

The smallest, most versatile line voltage track lighting system on the planet.

Tangent delivers the performance and convenience of line voltage in a profile no larger than most low voltage rail systems. Ideal for commercial, retail and residential applications, Tangent may be surface mounted or suspended, in straight runs or in sweeping architectural curves. Tangent's unique design, diminutive size and strikingly clean lines redefine the state-of-the-art in line voltage track lighting.
