

# Make Energy Smart<sup>®</sup> Lighting Easy with Energos<sup>™</sup>

Series 2 duplex lens

Series 1 parabolic louver

Introducing Energos, designed and engineered to make energy smart lighting easy and effective. Energos is a true system of lighting that blends specific lamp and ballast combinations, integrated occupancy and daylight sensors and multiple high performance optics to fine-tune light levels in a space. This unique approach eliminates over-lighting and can easily achieve a 30% reduction in energy consumption over conventional linear lighting systems. The Energos Control System is pre-commissioned at the factory and incorporates true Plug-and-Play technology allowing each sensor in the system to operate independently or in unison. Energos is an energy-cost effective approach to lighting offices, universities and spaces of a mainstream character. Contact your Lightolier Sales Representative for detailed information on this high-performance energy smart lighting solution.
